VOLUME 7. MARYVILLE, MISSOURI, WEDNESDAY, APR. 25, 1917. NO. 279.

FOR CONSCRIPTION

11 MARYVILLE MEN INTERVIEWED FOR ST. LOUIS POST-DISPATCH.

2 FAVOR VOLUNTEER PLAN

Nearly All Would Have Congressmen Vote for Universal Service When Measure Comes Up.

At the request of the St. Louis Post-Dispatch eleven Maryville men were asked to give answers to the two following questions:

1. Do you favor universal service and selective conscription or do you favor the volunteer system for raising the great army that we need to bring the war with Germany to a successful conclusion?

2. How do you want your congressmen and senators to vote?

The result of the canvass showed that nine of these men were for universal service and two were for the volunteer system under certain conditions.

Following are the interviews received:

Mayor A. S. Robey—I have not studied the question very thoroughly, but at present I am inclined to favor selective conscription and universal service and want to see our congressmen and senators vote that way.

W. W. Jones—I am for the volunteer system in the present crisis but for compulsory military service afterward in order to be prepared in case of emergency. I had intended to write our representatives to vote this way.

S. G. Gillam—I believe in letting each man do his part the principle which is embodied in universal service and selective conscription. I want the congressmen to vote for that and also for the prevention of liquor manufacture while the food conservation campaign is on.

E. M. Claypool—Selective conscription is the only system. The volunteer system is a failure as may be seen from the experience of other nations. I would have Missouri go on record in favor of universal service.

Prof. J. M. McDonald.—I favor selective conscription and universal service as the only effective method of raising an army in the present crisis, and would have our representatives support the administration bill.

The Rev. C. Emerson Miller.—Selective conscription by all means. It is the only efficient system of raising an army of defense. Let our congressmen go on record in favor of the measure.

G. L. Wilfley.—Selective conscription and universal service are the only means of raising quickly the number of men needed for service in this country. The representatives of Missouri should support the president by voting for the measure.

George B. Baker—I favor universal service and selective conscription, but I want the congressmen and senators to vote which ever way they choose. I have unbounded confidence in their judgment.

Dr. E. C. Braniger—Universal service and selective conscription are in my opinion the only ways to bring about a favorable termination of the war. I am in favor of having our senators and representatives vote for it.

Dr. F. R. Anthony—Universal service and selective conscription, by all means. They will shorten the conflict and more easily crush the enemy. I hope the senators and representatives will vote for it.

T. A. Cummins—I am for the volunteer system if an army is to be sent to Europe. If it is a question of defending our shores I believe that enough men will volunteer without resorting to selective conscription.

2ND NORMAL GAME FRIDAY

Bearcats Will Meet Old Rivals From Tarkio College — A Large Crowd Expected.

The Normal base ball team will play its second conference game of the season next Friday with Tarkio College. The crowds for the track meet and the literary contests will be beginning to arrive at that time and there should be a large crowd out to the game. An effort was made to schedule the game for Saturday morning, but that date was not acceptable to Tarkio.

Tarkio and Maryville are old rivals in all branches of sport. Tarkio swamped Maryville in foot ball this year, and the Bearcats trimmed Tarkio twice in basket ball, so both schools are counting much on the outcome of the baseball games.

Both Tarkio and Maryville have been defeated by William Jewell at Liberty, the former by a score of 3-1, the latter 8-3. However the Bearcats say they were off form at Liberty and claim that they will defeat the Jewellites in the return game here. Tarkio lost two other games on their foreign trip, chiefly because of weak hitting. It is reported that they have a good fielding team and are strong in the pitching department, but are weak in the offensive.

The Bearcats will line up about the same as at Liberty. Van Cleve will do the pitching and Torchy Sawyers will be on the receiving end. Bird, Ferguson ,Wagers and Scarlett will make up the infield. The outfield is subject to change. Girard and Todd are sure of their positions, but the other place is still open.

DRAYS ARE BUSY

CLEAN UP DAY WILL BE SUCCESSFUL IN MARYVILLE.

SCHOOL CHILDREN HELP

Removing Rubbish From Yards and Lots — Will Finish Work Tomorrow Noon.

Clean Up Day is going to be a huge success from the looks of the drays that are traveling through the streets, piled high with tin cans pieces of iron and rubbish of all sorts.

At 7 o'clock this morning, four teams began work and have been hauling loads steadily ever since. The piles of rubbish placed on all the parkways of the east and west streets are being gathered and most of the work will be done by night. The workmen thought that the work in the first and second wards would be finished today and the work in the third and fourth would probably take half of tomorrow.

The children of Jefferson school under the direction of Miss Ada Albert cleaned their school yard yesterday afternoon and also the old city cemetery. The other ward schools will get at the work either this afternoon or tomorrow.

The Sixth grade at Washington school won the prizes offered by Supt. J. M. McDonald for the cleanest section of yard in the grounds. The boys will receive a catching glove and the girls a hand ball.

Today is the only day when the rubbish will be hauled free, but the Clean Up campaign will last through the week. It is expected that the dray men will be hired by private parties to haul away rubbish that could not be placed on the park ways. Many owners of vacant lots are also planning to clean up, and will have use for the drays in hauling away the debris.

A CHILD'S POSITION

BABY HOLDS IN HOLLOW OF HIS HAND SOCIETY'S FUTURE.

DUTY OF COMMUNITY

Child Must be Given Opportunity to Fully Develop and Use His Powers in Life's Battle.

When you place in juxta-position the two words Community and Child you have assembled in one phrase the basic elements of human association, ray of cultivation itself. The child holds in the hollow of his hand the tomorrow of society.

We Americans believe that equality of opportunity is a God-given right, both of individuals and of nations.

Now by our federal system of government, by far the major part of a child's opportunity is dependent upon the wisdom of the community in which he lives. Practically all the influences of environment and even the laws that govern what his inheritance shall be are dictated by the community viewpoint. He is born, nourished and educated as his community wills.

It is then, a safe and sane thing to do, to pause in our busy whirl of maternalistic duties and consider the duty of the community to the child. This duty of the community child. This duty surely can be nothing less than this, to so develop the potential ability of each child in the community that the most perfect possible adjustment of life conditions may be made by each one of them. Nothing short of a supreme effort to give each child in the community an equal opportunity to fully develop and use his powers in the battle of life can satisfy our American ideal of justice.

Gradually society is becoming conscious of its duties and stirring itself that each child may start with equal opportunity by being as well-born as man-made law can insure.

Next the community has discovered that it must supply the things lacking in the judgment and ability of parents and make the care and nourishment of infant children a matter of public concern.

The duty of the community has only begun to be fulfilled when the child is well-born and physically fit. Then comes the most important process of all, the education of the child, the development of his powers. Here one is inclined to pause and wonder if it would not be well to inquire into the duty of the state to the children of each community.

When you consider the diverse abilities of people and the multifarious demands of modern industry you at once realize that only the larger communities can finance the many kinds of education necessary to be offered that each child may be fully developed according to what is best in him,

Repulse of Germans Near Huertbiza Also Reported — Flower of German Army Wiped Out.

Special to The Democrat-Forum.

London, April 25.—Haig's men have smashed their way forward and are still nearer Cambrai, today's war office report stated despite desperate resistance.

London April 25. — Haig's forces continued their terrific assaults on the German battle line east of Arras. The ferocity of the British attack has shattered and wiped out the flower of the German army. The British line has advanced within a hundred yards of Cherisy and Fontaine-les-Croiselles.

The German battalion had been instructed to hold the northern section of the Hindenburg line at any costs. In doing so they were mowed down by artillery and overwhelmed by bayonet charges. Fresh divisions were sent forward to stem the attack but were hurled back with terrific losses and trenches are filled with German dead.

French Continue Drive.

Paris, April 25.—The French are continuing their drive forward in the Champaigne region today. The war office report recorded further advances for the French troops and the repulse of German attacks near Huertbiza was also reported. The resistance on the part of the Germans to the British drive continues.

HAVE ENTERED WAR IN LIBERTY'S CAUSE

French Commissioners Welcomed Today in Washington by Officials And Civilians.

Special to The Democrat-Forum.

Washington, April 25.—"I am told that there are some doubting critics in America, who believe that the mission of the British and French officials in this country is to inveigle the United States out of her traditional policy and to entangle her into an alliance secret or public, with the European government.

"I cannot imagine a rumor that has less foundation, nor an undertaking that would be more futile. America entered this great conflict in the cause of liberty, in the same spirit which animates all of the allied countries." With visible emotion Balfour thus outlined to the correspondents today the aims of the commissions of France and England who have just arrived in America.

Washington, April 25.—The spirit of France came to the nation's capitol today. It's great national hero, General Joffre, accompanied by the vice-premier Viviani, passed through the streets of the city prepared to tell the American people what they must do so that the cause of the Republic might triumph over Prussian militarism. They received a rousing reception.

Washington, April 25. — Official Washington gave itself unreservedly today to the pleasurable task of welcoming the French commissioners due to arrive in the city at 12:30 o'clock. American women are to have a representative in the war council of nations and a committee of women's deknown as "committee of women's defense works," was created today by the council of national defense. An official announcement of the appointment of the committee was made today. Anna Howard Shaw, veteran suffrage advocate, was named as the chairman.

Washington, April 25.—General debate will be continued in the house on the army bill all day tomorrow, Representative Dent announced this afternoon and said it was necessary because a large number of requests to speak were made by members on both sides of the bill.

A SUIT OVER $7.50

George Craig Sued by A. M. Campbell for Half of the Profit on a Cow Which He Wouldn't Sell.

A suit for $7.50 was tried in Justice W. L. Johnson's court this morning, A. M. Campbell suing George Craig for that sum. The jury after hearing the case decided in favor of Craig. Campbell claims Craig owed him that sum as his share of a sale of a cow which could be sold to Theodore Knox for $15 profit over the original price. Craig refused to sell the animal to Knox, so Campbell alleges. Craig was represented by Charles McCaffrey and Campbell by P. L. Growney. The jury that heard the case was composed of William Hughes, E. H. Bainum, Mike Humphrey, Fred Smith and T. S. McDonald.

A CHILD'S POSITION

(Continued from page 1.)

developed so that he may be free to exercise his most characteristic powers. To the fullness of its ability, even to the point of sacrifice the community must offer educational opportunity to children of every walk of life, suited to the child's powers and to his ultimate needs.

Nor is community thought for a child's birth, for his growth and for his culture sufficient. The hours of his play are also subject for community action and community supervision. Failure to provide intelligently for the recreation hours of a child may and probably will undo all that the other provisions have attempted to ensure.

Whether confident of personal immortality or not, no one can read the pages of history and miss the conviction that the continual evolution of mankind toward the ideal man is in progress. That the dream of the super-man is not a fantasy but a hope. In this struggle of the race then toward the development of ideal personality, the community will is the master sculptor, the child the clay beneath the finger.—General Federation Magazine.

H. S. PROSPECTS BRIGHT

Chances for Maryville in Track Meet Saturday Increase After Each Practice.

With only two more evenings of practice the six men of the Maryville high school track team are working dilligently and their prospects of winning appear brighter after each practice. At yesterday evening's practice, Eugene Yehle ran the 220-yard dash in record time, 23 4-5 seconds. He also ran the 100-yard dash twice, setting a mark of 10 2-5 seconds in one trial and 10 3-5 seconds in the other. He should place high in both events if there are no "dark horses" to be considered.

Lester Masters is developing into a fast running mate for Yehle, finishing only a few feet behind him in both events. He also entered in the 12-pound shot put and discus throw, and has a good chance to place in both.

Woodward and Bartram are running the quarter and half mile runs easily and their time is getting faster each evening.

Ralph Yehle, who is entered in the jumps, has not been able to practice much lately on account of a bad cold. By taking good care of himself he will be able to take part in the meet Saturday. From what practicing he has done he still shows the spring and the form of last year, and his ability is such that he should take several points in the meet.

The sextet is confident of making a good showing and are planning to attend other meets in this part of the state.

The contestants in the literary contest is Miss Erma Greene. She is a beginning senior in the High school and the contest Friday night will be her last.

ANNOYING SYMPTOMS

How Heat Flashes, Dizzy Spells and other Bad Feelings at Change of Life may be Relieved.

Richmond, Va. — "After taking seven bottles of Lydia E. Pinkham's Vegetable Compound I feel like a new woman. I always had a headache during the Change of Life and was also troubled with other bad feelings common at that time — dizzy spells, nervous feelings and heat flashes. Now I am in better health than I ever was and recommend your remedies to all my friends." — Mrs. LENA WYNN, 2812 E. O Street, Richmond, Va.

While Change of Life is a most critical period of a woman's existence, the annoying symptoms which accompany it may be controlled, and normal health restored by the timely use of Lydia E. Pinkham's Vegetable Compound.

Such warning symptoms are a sense of suffocation, hot flashes, headaches, backaches, dread of impending evil, timidity, sounds in the ears, palpitation of the heart, sparks before the eyes, irregularities, constipation, variable appetite, weakness and dizziness.

A COMMUNITY PICTURE

Story of How A City Helped Citizens to Raise Gardens Shown at Court House Tomorrow Night.

The story of how a city is helping its citizens to raise flowers and vegetables will be shown in picture and film tomorrow night at 7:30 o'clock in the Circuit Court room.

The Commercial Club has arranged with The National Cash Register company of Dayton, Ohio. to show some of its stereopticon pictures and motion picture film, illustrating the work that has been done in Dayton around the plant of that company, and in other sections of the city.

There is a constructive lesson in these interesting pictures. They show what organized effort will produce in a community. The result in Dayton is no exception. Other cities have followed suit with equal success.

Many years ago the National Cash Register company adopted the neighborhood improvement idea to overcome certain unsatisfactory conditions that prevailed in the section of the city in which the factory is located. The neighborhood was then known as Slidertown, and the conditions were no better than the name would imply.

After trying many expedients, the officials of the company decided to train the boys and girls of the community to raise flowers and vegetables in order that they might have something constructive to occupy their time. The move was successful, and the story of how it was all brought about is a fascinating one. It will be told by the expert lecturer who accompanies the film and pictures.

Every section of this city will benefit by applying some of the lessons to be learned from these pictures, and it will be time well spent to attend the lecture.

In addition there will be shown a three reel feature film entitled, "The Troubles of a Merchant and How to Correct Them." These pictures are especially applicable to merchants and clerks and are instructive and entertaining. The pictures have attracted a great deal of attention wherever shown, particularly in some of the larger cities.

There will be no charge for admission, and all are cordially invited to attend.

DAILY DEMOCRAT-FORUM

NEWS DISPATCHES FROM THE INTERNATIONAL NEWS SERVICE.

VOLUME 7. MARYVILLE, MISSOURI, WEDNESDAY, APR. 25, 1917. NO. 279.

FOR CONSCRIPTION

11 MARYVILLE MEN INTERVIEWED FOR ST. LOUIS POST-DISPATCH.

2 FAVOR VOLUNTEER PLAN

Nearly All Would Have Congressmen Vote for Universal Service When Measure Comes Up.

At the request of the St. Lodis Post-Dispatch eleven Maryville men were asked to give answers to the two following questions:

1. Do you favor universal service and selective conscription or do you favor the volunteer system for raising the great army that we need to bring the war with Germany to a successful conclusion?

2. How do you want your congressmen and senators to vote?

The result of the canvass showed that nine of these men were for universal service and two were for the volunteer system under certain conditions.

Following are the interviews received:

Mayor A. S. Robey—I have not studied the question very thoroughly, but at present I am inclined to favor selective conscription and universal service and want to see our congressmen and senators vote that way.

W. W. Jones—I am for the volunteer system in the present crisis but for compulsory military service afterward in order to be prepared in case of emergency. I had intended to write our representatives to vote this way.

S. G. Gillam—I believe in letting each man do his part the principle which is embodied in universal service and selective conscription. I want the congressmen to vote for that and also for the prevention of liquor manufacture while the food conservation campaign is on.

E. M. Claypool—Selective conscription is the only system. The volunteer system is a failure as may be seen from the experience of other nations. I would have Missouri go on record in favor of universal service.

Prof. J. M. McDonald.—I favor selective conscription and universal service as the only effective method of raising an army in the present crisis, and would have our representatives support the administration bill.

The Rev. C. Emerson Miller.—Selective conscription by all means. It is the only efficient system of raising an army of defense. Let our congressmen go on record in favor of the measure.

G. L. Wilfley.—Selective conscription and universal service are the only means of raising quickly the number of men needed for service in this country. The representatives of Missouri should support the president by voting for the measure.

George B. Baker—I favor universal service and selective conscription, but I want the congressmen and senators to vote which ever way they choose. I have unbounded confidence in their judgment.

Dr. E. C. Braniger—Universal service and selective conscription are in my opinion the only ways to bring about a favorable termination of the war. I am in favor of having our senators and representatives vote for it.

Dr. F. R. Anthony—Universal service and selective conscription, by all means. They will shorten the conflict and more easily crush the enemy. I hope the senators and representatives will vote for it.

T. A. Cummins—I am for the volunteer system if an army is to be sent to Europe. If it is a question of defending our shores I believe that enough men will volunteer without resorting to selective conscription.

2ND NORMAL GAME FRIDAY

Bearcats Will Meet Old Rivals From Tarkio College — A Large Crowd Expected.

The Normal base ball team will play its second conference game of the season next Friday with Tarkio College. The crowds for the track meet and the literary contests will be beginning to arrive at that time and there should be a large crowd out to the game. An effort was made to schedule the game for Saturday morning, but that date was not acceptable to Tarkio.

Tarkio and Maryville are old rivals in all branches of sport. Tarkio swamped Maryville in foot ball this year, and the Bearcats trimmed Tarkio twice in basket ball, so both schools are counting much on the outcome of the baseball games.

Both Tarkio and Maryville have been defeated by William Jewell at Liberty, the former by a score of 3-1, the latter 8-3. However the Bearcats say they were off form at Liberty and claim that they will defeat the Jewellites in the return game here. Tarkio lost two other games on their foreign trip, chiefly because of weak hitting. It is reported that they have a good fielding team and are strong in the pitching department, but are weak in the offensive.

The Bearcats will line up about the same as at Liberty. Van Cleve will do the pitching and Torchy Sawyers will be on the receiving end. Bird, Ferguson ,Wagers and Scarlett will make up the infield. The outfield is subject to change. Girard and Todd are sure of their positions, but the other place is still open.

DRAYS ARE BUSY

CLEAN UP DAY WILL BE SUCCESSFUL IN MARYVILLE.

SCHOOL CHILDREN HELP

Removing Rubbish From Yards and Lots — Will Finish Work Tomorrow Noon.

Clean Up Day is going to be a huge success from the looks of the drays that are traveling through the streets, piled high with tin cans pieces of iron and rubbish of all sorts.

At 7 o'clock this morning, four teams began work and have been hauling loads steadily ever since. The piles of rubbish placed on all the parkways of the east and west streets are being gathered and most of the work will be done by night. The workmen thought that the work in the first and second wards would be finished today and the work in the third and fourth would probably take half of tomorrow.

The children of Jefferson school under the direction of Miss Ada Albert cleaned their school yard yesterday afternoon and also the old city cemetery. The other ward schools will get at the work either this afternoon or tomorrow.

The Sixth grade at Washington school won the prizes offered by Supt. J. M. McDonald for the cleanest section of yard in the grounds. The boys will receive a catching glove and the girls a hand ball.

Today is the only day when the rubbish will be hauled free, but the Clean Up campaign will last through the week. It is expected that the dray men will be hired by private parties to haul away rubbish that could not be placed on the park ways. Many owners of vacant lots are also planning to clean up, and will have use for the drays in hauling away the debris.

A CHILD'S POSITION

BABY HOLDS IN HOLLOW OF HIS HAND SOCIETY'S FUTURE.

DUTY OF COMMUNITY

Child Must be Given Opportunity to Fully Develop and Use His Powers in Life's Battle.

When you place in juxta-position the two words Community and Child you have assembled in one phrase the basic elements of human association, ray of cultivation itself. The child holds in the hollow of his hand the tomorrow of society.

We Americans believe that equality of opportunity is a God-given right, both of individuals and of nations.

Now by our federal system of government, by far the major part of a child's opportunity is dependent upon the wisdom of the community in which he lives. Practically all the influences of environment and even the laws that govern what his inheritance shall be are dictated by the community viewpoint. He is born, nourished and educated as his community wills.

It is then, a safe and sane thing to do, to pause in our busy whirl of maternalistic duties and consider the duty of the community to the child. This duty of the community child. This duty surely can be nothing less than this, to so develop the potential ability of each child in the community that the most perfect possible adjustment of life conditions may be made by each one of them. Nothing short of a supreme effort to give each child in the community an equal opportunity to fully develop and use his powers in the battle of life can satisfy our American ideal of justice.

Gradually society is becoming conscious of its duties and stirring itself that each child may start with equal opportunity by being as well-born as man-made law can insure.

Next the community has discovered that it must supply the things lacking in the judgment and ability of parents and make the care and nourishment of infant children a matter of public concern.

The duty of the community has only begun to be fulfilled when the child is well-born and physically fit. Then comes the most important process of all, the education of the child, the development of his powers. Here one is inclined to pause and wonder if it would not be well to inquire into the duty of the state to the children of each community.

When you consider the diverse abilities of people and the multifarious demands of modern industry you at once realize that only the larger communities can finance the many kinds of education necessary to be offered that each child may be fully developed according to what is best in him,

Repulse of Germans Near Huertbiza Also Reported — Flower of German Army Wiped Out.

Special to The Democrat-Forum.

London, April 25.—Haig's men have smashed their way forward and are still nearer Cambrai, today's war office report stated despite desperate resistance.

London April 25. — Haig's forces continued their terrific assaults on the German battle line east of Arras. The ferocity of the British attack has shattered and wiped out the flower of the German army. The British line has advanced within a hundred yards of Cherisy and Fontaine-les-Croiselles.

The German battalion had been instructed to hold the northern section of the Hindenburg line at any costs. In doing so they were mowed down by artillery and overwhelmed by bayonet charges. Fresh divisions were sent forward to stem the attack but were hurled back with terrific losses and trenches are filled with German dead.

French Continue Drive.

Paris, April 25.—The French are continuing their drive forward in the Champaigne region today. The war office report recorded further advances for the French troops and the repulse of German attacks near Huertbiza was also reported. The resistance on the part of the Germans to the British drive continues.

HAVE ENTERED WAR IN LIBERTY'S CAUSE

French Commissioners Welcomed Today in Washington by Officials And Civilians.

Special to The Democrat-Forum.

Washington, April 25.—"I am told that there are some doubting critics in America, who believe that the mission of the British and French officials in this country is to inveigle the United States out of her traditional policy and to entangle her into an alliance secret or public, with the European government.

"I cannot imagine a rumor that has less foundation, nor an undertaking that would be more futile. America entered this great conflict in the cause of liberty, in the same spirit which animates all of the allied countries." With visible emotion Balfour thus outlined to the correspondents today the aims of the commissions of France and England who have just arrived in America.

Washington, April 25.—The spirit of France came to the nation's capitol today. It's great national hero, General Joffre, accompanied by the vice-premier Viviani, passed through the streets of the city prepared to tell the American people what they must do so that the cause of the Republic might triumph over Prussian militarism. They received a rousing reception.

Washington, April 25. — Official Washington gave itself unreservedly today to the pleasurable task of welcoming the French commissioners due to arrive in the city at 12:30 o'clock. American women are to have a representative in the war council of nations and a committee of women's deknown as "committee of women's defense works," was created today by the council of national defense. An official announcement of the appointment of the committee was made today. Anna Howard Shaw, veteran suffrage advocate, was named as the chairman.

Washington, April 25.—General debate will be continued in the house on the army bill all day tomorrow, Representative Dent announced this afternoon and said it was necessary because a large number of requests to speak were made by members on both sides of the bill.

A SUIT OVER $7.50

George Craig Sued by A. M. Campbell for Half of the Profit on a Cow Which He Wouldn't Sell.

A suit for $7.50 was tried in Justice W. L. Johnson's court this morning, A. M. Campbell suing George Craig for that sum. The jury after hearing the case decided in favor of Craig. Campbell claims Craig owed him that sum as his share of a sale of a cow which could be sold to Theodore Knox for $15 profit over the original price. Craig refused to sell the animal to Knox, so Campbell alleges. Craig was represented by Charles McCaffrey and Campbell by P. L. Growney. The jury that heard the case was composed of William Hughes, E. H. Bainum, Mike Humphrey, Fred Smith and T. S. McDonald.

developed so that he may be free to exercise his most characteristic powers. To the fullness of its ability, even to the point of sacrifice the community must offer educational opportunity to children of every walk of life, suited to the child's powers and to his ultimate needs.

Nor is community thought for a child's birth, for his growth and for his culture sufficient. The hours of his play are also subject for community action and community supervision. Failure to provide intelligently for the recreation hours of a child may and probably will undo all that the other provisions have attempted to ensure.

Whether confident of personal immortality or not, no one can read the pages of history and miss the conviction that the continual evolution of mankind toward the ideal man is in progress. That the dream of the super-man is not a fantasy but a hope. In this struggle of the race then toward the development of ideal personality, the community will is the master sculptor, the child the clay beneath the finger.—General Federation Magazine.

H. S. PROSPECTS BRIGHT

Chances for Maryville in Track Meet Saturday Increase After Each Practice.

With only two more evenings of practice the six men of the Maryville high school track team are working dilligently and their prospects of winning appear brighter after each practice. At yesterday evening's practice, Eugene Yehle ran the 220-yard dash in record time, 23 4-5 seconds. He also ran the 100-yard dash twice, setting a mark of 10 2-5 seconds in one trial and 10 3-5 seconds in the other. He should place high in both events if there are no "dark horses" to be considered.

Lester Masters is developing into a fast running mate for Yehle, finishing only a few feet behind him in both events. He also entered in the 12-pound shot put and discus throw, and has a good chance to place in both.

Woodward and Bartram are running the quarter and half mile runs easily and their time is getting faster each evening.

Ralph Yehle, who is entered in the jumps, has not been able to practice much lately on account of a bad cold. By taking good care of himself he will be able to take part in the meet Saturday. From what practicing he has done he still shows the spring and the form of last year, and his ability is such that he should take several points in the meet.

The sextet is confident of making a good showing and are planning to attend other meets in this part of the state.

The contestants in the literary contest is Miss Erma Greene. She is a beginning senior in the High school and the contest Friday night will be her last.

If possesses unusual antiseptic qualities.
It has a most pleasing and refreshing taste.

PERIN DENTIFRICE contains a specially prepared neutral cleansing powder which acts upon the mucous secretions on the teeth in the same manner that a fine toilet soap acts upon the skin and that is why the teeth FEEL clean and ARE clean after using it. FACTS

Has It Been Brought to Your Notice That

Cooking Electrically

Solves all the Economic Problems of the Housewife.

Won't You Take The Time to investigate the claim that

Cooking Electrically

Will SAVE YOU MONEY over the cost of operation of coal or oil stoves—and in the attendant expense of handling fuel and ashes—That

Cooking Electrically

Gives you more time to devote to other things---opportunity to get out of a hot kitchen more hours each day. "Is your time worth three cents an hour?" That

Cooking Electrically

Is the modern way---this is 1917 not 1776---don't dress like a queen and cook like a slave. That

Cooking Electrically

Is the safe way---no explosions to always be on guard about, no over-heated stoves while you are out to threaten destruction of your home---no ill-smelling fumes to be offensive---That

Cooking Electrically

Means better food. An even, steady heat concentrated just where you want it and when you want it---Turn a button and its there.

Do not all these FACTS mean you owe it to yourself to let us show you the merits of Electric Ranges

A COMMUNITY PICTURE

Story of How A City Helped Citizens to Raise Gardens Shown at Court House Tomorrow Night.

The story of how a city is helping its citizens to raise flowers and vegetables will be shown in picture and film tomorrow night at 7:30 o'clock in the Circuit Court room.

The Commercial Club has arranged with The National Cash Register company of Dayton, Ohio, to show some of its stereopticon pictures and motion picture film, illustrating the work that has been done in Dayton around the plant of that company, and in other sections of the city.

There is a constructive lesson in these interesting pictures. They show what organized effort will produce in a community. The result in Dayton is no exception. Other cities have followed suit with equal success.

Many years ago the National Cash Register company adopted the neighborhood improvement idea to overcome certain unsatisfactory conditions that prevailed in the section of the city in which the factory is located. The neighborhood was then known as Slidertown, and the conditions were no better than the name would imply.

After trying many expedients, the officials of the company decided to train the boys and girls of the community to raise flowers and vegetables in order that they might have something constructive to occupy their time. The move was successful, and the story of how it was all brought about is a fascinating one. It will be told by the expert lecturer who accompanies the film and pictures.

Every section of this city will benefit by applying some of the lessons to be learned from these pictures, and it will be time well spent to attend the lecture.

In addition there will be shown a three reel feature film entitled, "The Troubles of a Merchant and How to Correct Them." These pictures are especially applicable to merchants and clerks and are instructive and entertaining. The pictures have attracted a great deal of attention wherever shown, particularly in some of the larger cities.

There will be no charge for admission, and all are cordially invited to attend.
